On a separate matter, have you made a decision on funding an attorney position? I submitted that request quite a while back. My staff has been communicating with your staff on this repeatedly with the assurance that a decision would be made but no response has been given. As you know, our workload is very heavy and any assistance with be greatly appreciated.

Subject: Tejon Request for Confirmation of Status

Your office has been working on the Tejon Request for Confirmation of Status for several months. The tribal chairman has called and e-mailed me several times. I would appreciate it if you could move this matter forward.
